PROFILE

With a Bachelor's degree from IT University Antananarivo, I'm looking for a new professional opportunity that would allow me to apply and improve my knowledge in web and mobile application development.

PROFESSIONAL EXPERIENCE

FrontEnd - BackEnd

IT University, **Andoharanofotsy** | December 2022

- BackOffice for managing an auction site
- Technologies: ReactNative, SpringBoot.Java, PostgreSQL
- Objective: Provide administrators with product and user management functionalities, auction configuration and sales statistics..

FullStack JS Developer

AffixNow SARL, Antananarivo | January 2023 – December 2023

- Management of a Transport on Demand application.
- Technologies: NodeJS, Express, ReactNative, React, MongoDB
- Objective: Design and create from scratch an on-demand transport application with its own payment module.

Trainee Developer

ASTEK, Antananarivo | March 2024 – June 2024

- Internships and professional training
- Technologies: C#, Oracle PL/SQL, Vue.JS
- Objective: Training and mastery of various technologies related to company projects.
